

## **Starting a remote dart league match.**

- 1. Select League Mode**
- 2. Select Play Remote League**
- 3. Select your league**
- 4. Select your team (local team)**
- 5. Select Home or Away, is your team home or away on the schedule**
- 6. Select the team you are playing remotely (your opponent).  
If the other team is ready you will see them, if not the dart board will say Waiting for (your opponent). Once both teams show up then:**
- 7 Set up your roster (shooting order)**
- 8 Select Start Match.**
- 9 Once both teams are ready, put \$ in the dart board and Start Match.**

**Note: Players must use the Player Change Button after each round when playing remotely.**

**Note: If you need to back up a dart, the team that threw the dart must back up the dart, and the other team has to accept that you can back up the dart.**
