Starting a remote dart league match.

1. Select League Mode
2. Select Play League (Local or Remote)
3. Select your league
4. Your League Message is next then Continue
5. League Camera Check, Select: (Yes, Both Cameras work) (No, Continue anyways) or (No, Cancel League Setup)
6. Select your team
7. Select Home or Away, is your team home or away on the schedule
8. Select the team you are playing against (your opponent). Is the other team present with you: Select: (No, play remote league) If the other team is ready you will see them, if not the dart board will say Waiting for (your opponent). Once both teams are ready, then:
9. Set up your roster (player order)
10. Select Start Match.
11. Now Put in your $ and Start Match.
